Contents Volume 77, 2005

VOL. 77, NOS. 1–2

Sorption of europium on a goethite surface: influence of background electrolyte
A. Naveau, F. Monteil-Rivera, J. Dumonceau and S. Boudesocque 1
Formation and stability of polychlorinated biphenyl Pickering emulsions
A. Roy-Perreault, B.H. Kueper and J. Rawson 17
Cost-effective sampling network design for contaminant plume monitoring under general hydrogeological conditions
J. Wu, C. Zheng and C.C. Chien 41
A pore-scale investigation of a multiphase porous media system
R.I. Al-Raoush and C.S. Willson 67
Modeling field-scale multiple tracer injection at a low-level waste disposal site in fractured rocks: Effect of multiscale heterogeneity and source term uncertainty on conceptual understanding of mass transfer processes
J.-P. Gwo, P.M. Jardine and W.E. Sanford 91
Fate of disinfection by-products in groundwater during aquifer storage and recovery with reclaimed water
P. Pavelic, B.C. Nicholson, P.J. Dillon and K.E. Barry 119

Erratum
Erratum to "Quantification and modeling of 2,4-Dinitrotoluene reduction with high-purity and cast iron" [J. Contam. Hydrol. 76 (2005) 87—107]
B. Jafarpour, P.T. Imhoff and P.C. Chiu 143

VOL. 77, NO. 3

Simulation of water flow and nitrogen transport for a Bulgarian experimental plot using SWAP and ANIMO models
D. Marinov, E. Querner and J. Roelsma 145
Filtration and transport of *Bacillus subtilis* spores and the F-RNA phage MS2 in a coarse alluvial gravel aquifer: Implications in the estimation of setback distances
L. Pang, M. Close, M. Goltz, M. Noonan and L. Sinton 165
Comparison of capillary pressure relationships of organic liquid–water systems containing an organic acid or base
D.L. Lord, A.H. Demond and K.F. Hayes 195

Discussions
Commentary: Assessment of past infiltration fluxes through Yucca Mountain on the basis of the secondary mineral record—is it a viable methodology?
Y.V. Dublyansky and S.Z. Smirnov 209
Reply to "Commentary: Assessment of past infiltration fluxes through Yucca Mountain on the basis of the secondary mineral record—is it a viable methodology?" by Y.V. Dublyansky and S.Z. Smirnov
B.D. Marshall, L.A. Neymark and Z.E. Peterman 219

doi:10.1016/S0169-7722(05)00049-5

Reply to "Commentary: Assessment of past infiltration fluxes through Yucca Mountain on the basis of the secondary mineral record—is it a viable methodology?", by Y.V. Dublyansky and S.Z. Smirnov
E. Sonnenthal, T. Xu and G. Bodvarsson 225

VOL. 77, NO. 4

Illuminating reactive microbial transport in saturated porous media: Demonstration of a visualization method and conceptual transport model
P.M. Oates, C. Castenson, C.F. Harvey, M. Polz and P. Culligan. 233
Prediction of two-phase capillary pressure–saturation relationships in fractional wettability systems
D.M. O'Carroll, L.M. Abriola, C.A. Polityka, S.A. Bradford and A.H. Demond 247
Effects of skin and hydraulic fractures on SVE wells
G.C. Bradner and L.C. Murdoch 271
Large-scale effects on resistivity index of porous media
C. Aggelopoulos, P. Klepetsanis, M.A. Theodoropoulou, K. Pomoni and C.D. Tsakiroglou 299
Co-injection of air and steam for the prevention of the downward migration of DNAPLs during steam enhanced extraction: An experimental evaluation of optimum injection ratio predictions
S.F. Kaslusky and K.S. Udell 325
